## OPEN VIEWING DAY 17<sup>TH</sup> JANUARY 2018

**11am – 3pm**

### Situation

The property is located in Southport, Merseyside, close to the centre of this long established town.

Southport itself is a large seaside town with a population of 90,336 according to the 2001 census. It is the eleventh most populous settlement in North West England and lies on the Irish Sea coast, fringed to the north by the Ribble estuary. The town lies 17 miles north of Liverpool and 15 miles southwest of Preston. As to be expected by such a long established and popular location, transport links and local amenities are plentiful.

### The Property

The building was originally two semi-detached properties and is of red brick construction, typical of many properties in the surrounding area.

Internally, there are high ceilings and some of the original features such as mouldings and fireplaces have been retained. The properties are joined by way of partition doors, so could very easily be separated back into individual properties.

The business was closed in 2016 and the property has been maintained since that time. A guardian tenant is in situ, in line with the requirements of ongoing insurance.

To the rear of the property there is a sizable secure private garden and large car parking area. To the front is additional car parking, entrance to the basement and the garden. The property is screened from the street by a low wall, hedging and gates.

### The Opportunity

The property lends itself to a multitude of uses, including residential care, supported or independent living. It also has the potential to be converted back to private houses or apartments. There is also a large basement area, adding to the development potential.

## Accommodation

The main living accommodation is based on the ground, first and second floors, with bedrooms on all three floors.

In addition, there is a sizable basement, which presently houses the majority of ancillary services such as laundry, boiler room and kitchen stores. Below is a summary. Please note; room sizes have not been recorded but we can confirm that a number of the bedrooms appeared to be well above standard size. The home has a lift serving all floors above basement level
